

To
JUDr. Zuzana Dzurendová,
appointed to represent the Office Director of the Prime Minister of the Slovak Republik.

We are very honored by the attention that The Office of Prime Minister of The Slovak Republic has given us and we appreciate it very much.

We also appreciate the reassurance given us "... that the health care, a health care policy based on European traditions ..."

However, we must emphasize that our letter was motivated by another concern and for the defense of another "European tradition" - Democracy. Limiting the rights of a Group of Citizens to guarantee another Group of Citizens, seems to be a Failure of a System.
